***Grant Writing for Research Funding at
U.S. Institutions***

This Workshop will help you write and revise grant proposals for research funding in American academic disciplines (sciences, social sciences, humanities, and the arts) and non-academic institutions such as historical societies and national research libraries. It addresses primarily graduate students and faculty, although it will also be helpful to undergraduate students who are seeking funding for research (e.g. for a bachelor degree thesis). In addition, the workshop will provide information on research opportunities, the selection process and more. Participants are encouraged to bring drafts of project proposals for group workshops!
